

Sectoral Priorities Aligned with the World Bank Ukraine: Rapid Damage and Needs Assessment

Sector	Priority
1	2
Healthcare	<ol style="list-style-type: none"> 1. Ensuring access to essential basic primary healthcare service (e.g. PHC, PHC+) which is currently unavailable or not accessible in the territories that have recently been returned to the control of the Government of Ukraine and emergency medical and rescue services. 2. Restoration of primary medical service, rehabilitation of victims, social assistance to the population in the war-affected communities. 3. New infrastructure to replace destroyed facilities using the build-back better approach, including improved safety, energy efficiency standards and waste management
Energy (electricity, gas, and heating)	<ol style="list-style-type: none"> 1. Restoration of basic energy and utility services and critical social infrastructure (including heating, potable water, wastewater treatment, and security of high voltage transformers). 2. New infrastructure that reduces reliance on fossil fuel. 3. New infrastructure that promotes energy system decentralization through the increasing capacity of energy decentralisation and generation and/or promoting the compliance of the energy sector with the relevant EU regulations (e.g. the Energy Efficiency Directive 2012/27/EU).

1	2
Housing	<ol style="list-style-type: none"> 1. New infrastructure that promotes energy system decentralization through the increasing capacity of energy decentralisation and generation and/or promoting the compliance of the energy sector with the relevant EU regulations (e.g. the Energy Efficiency Directive 2012/27/EU). 2. Temporary Accommodation for IDPs, those evacuated from the warzone and people who lost their property due to the Russian Aggression in Ukraine. 3. Extensive restoration and construction for large-scale housing for a large number of families, including IDPs and those who lost their houses due to the Russian aggression in Ukraine and taking into account demographic trends, as well as promoting build back better approach.
Water and wastewater	<ol style="list-style-type: none"> 1. Restore/Minimize water supply disruptions to people and businesses based on building back better principles (limit water losses/ leakages). 2. Support emergency rapid response to ensure access to drinking water, including procuring the necessary equipment and machinery. 3. Better access to water and sanitation, focusing on rural and low coverage areas, in line with World Health Organisation (WHO) recommendations and bringing the water sector to compliance with the EU Directive on the quality of water intended for human consumption 2020/2184.
Safety and invincibility centres, shelters, etc.	<ol style="list-style-type: none"> 1. Rapid critical repairs in liberated areas; 2. Rapid critical repairs in areas with a high risk of air attacks; 3. Improve safety in public buildings and areas, e.g. schools, kindergartens, hospitals, centres of business activities, important transport nodes, etc.

1	2
Education	<ol style="list-style-type: none"><li data-bbox="504 279 2168 347">1. Expanding safe access in areas where students can attend in person by renovating partially damaged assets where some of the associated infrastructure is still operational and the rest is about to be restored.<li data-bbox="504 347 2168 416">2. Expanding the capacity of the existing network so more students can learn in-person or attend online school (where it is not possible to attend in person)<li data-bbox="504 416 2168 485">3. Restore and modernize the network of education institutions with a focus on demographic trends and future needs, including addressing the needs of the growing number of IDP students.
