disabilities

₴660M

totaling

Our needs from international partners

- **Communication support** for projects, **coverage of success stories:** programs for setting up workplaces for people with disabilities, grants for veterans, etc.
- **Development of new employment programs** and improvement of existing ones, monitoring their effectiveness.
- **Equipment** for barrier-free workplaces.
- **Training** for the State Employment Service employees. For example, training on the employment of veterans.

Our needs from international partners

- **Mobile State Employment Service offices** for working in communities across 20 regions.
- **Restoration of the State Employment Service buildings** that are located in areas where active combat is not currently ongoing, but the premises were destroyed by russia.
- **Modernization of the State Employment Service offices** according to accessibility and barrier free requirements.
- **Transfer of expertise in the employment of persons with disabilities**, according to the modern European experience and financial assistance for piloting such programs (e.g., based on the Estonian experience).
