# On the Crossroads of Transport Corridors

## Prospect directions of development of Asia-Europe flows

### Container shipping enablers

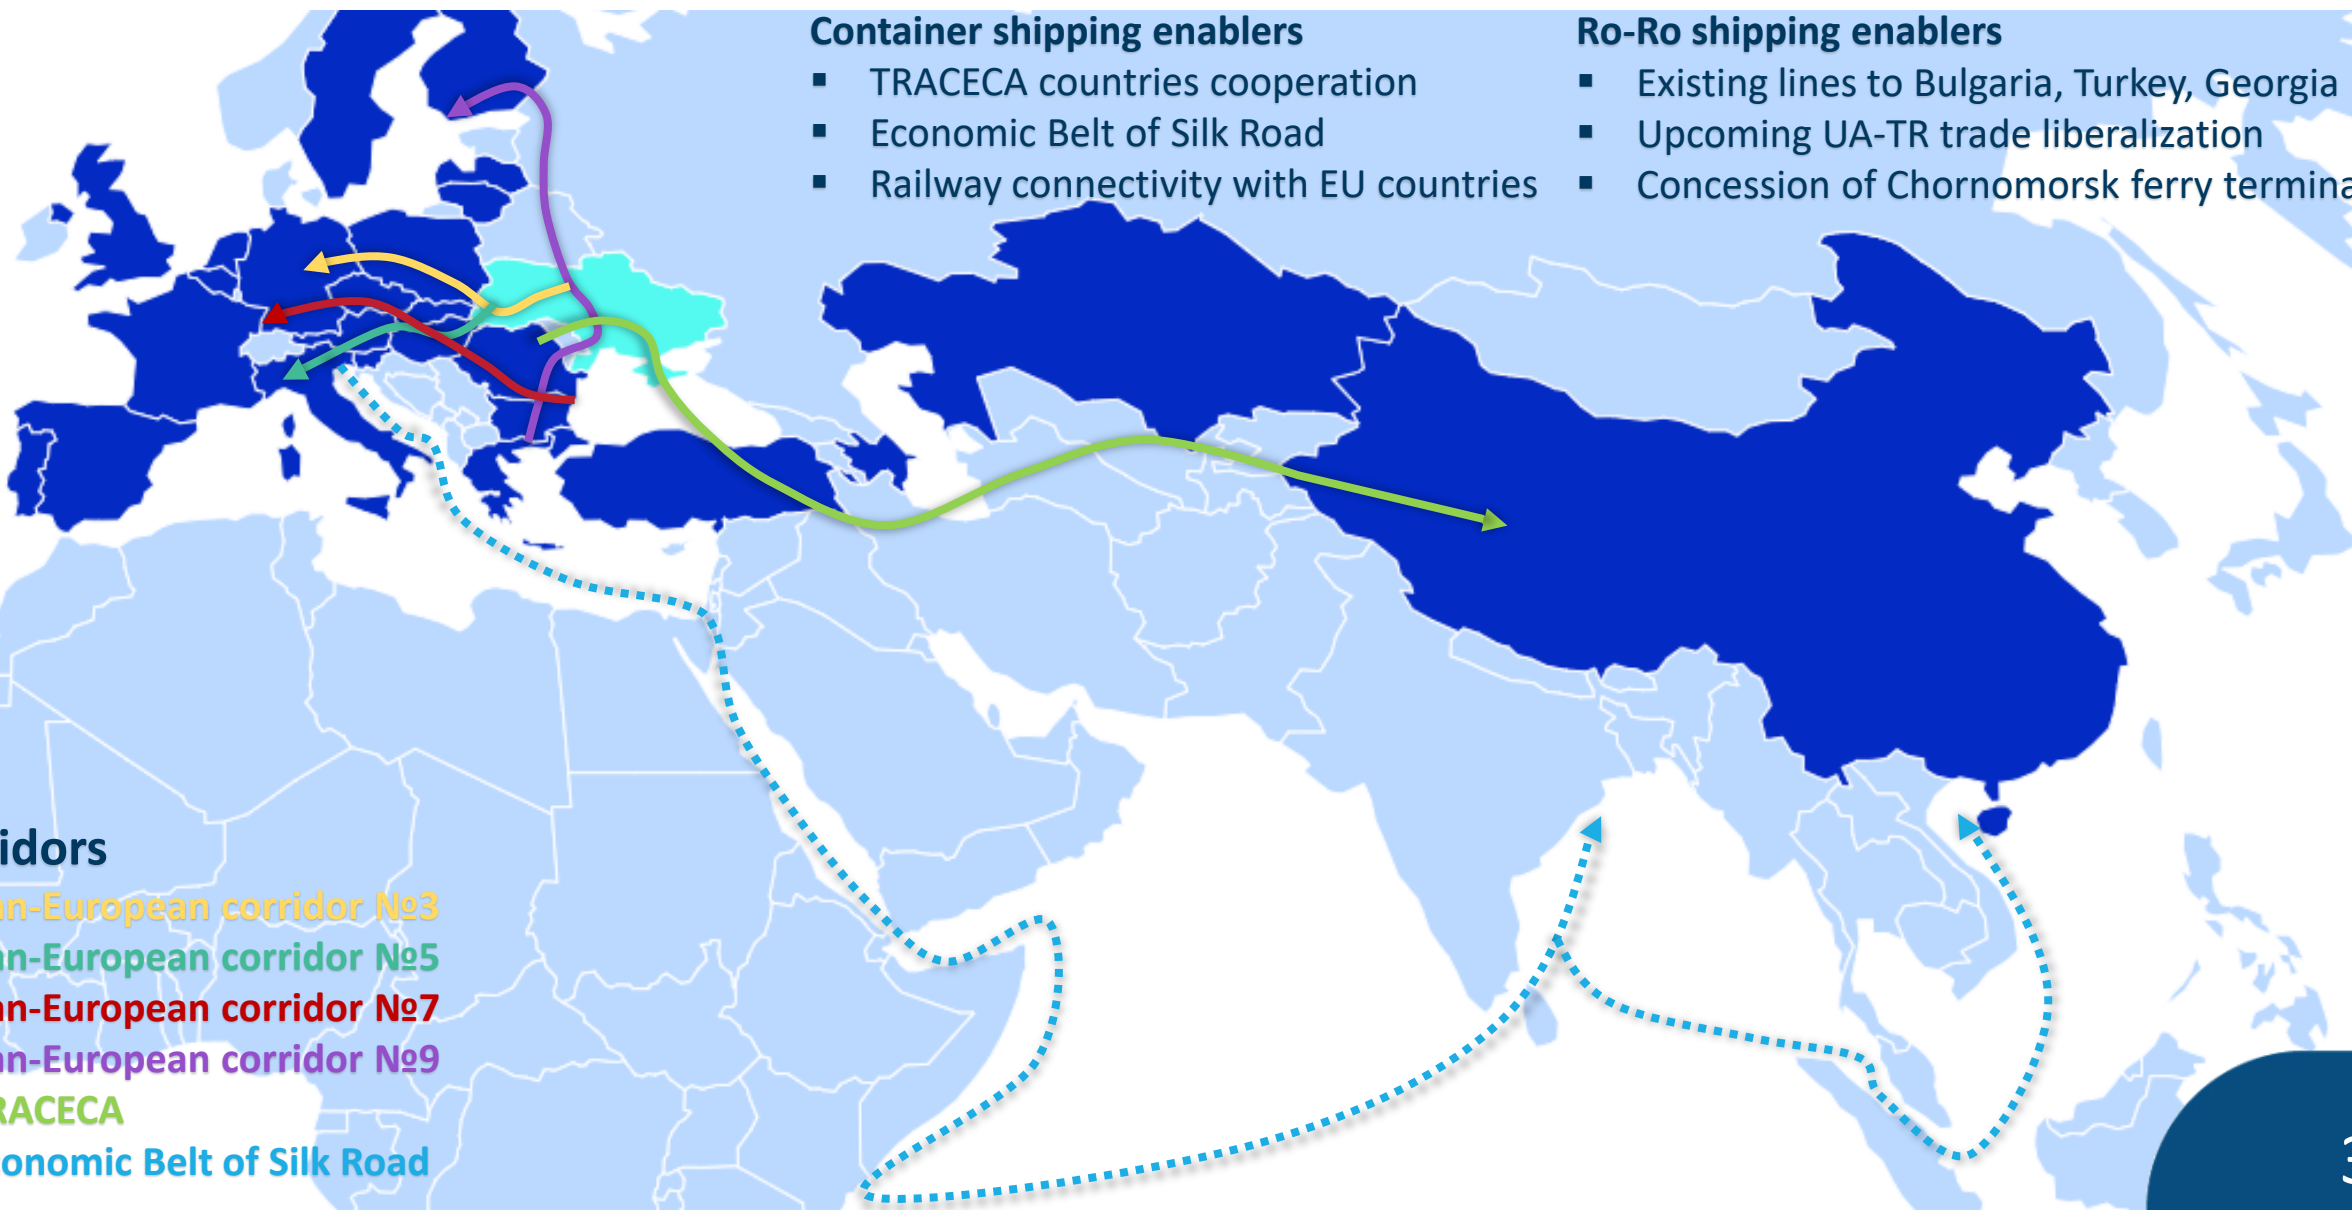

- TRACECA countries cooperation
- Economic Belt of Silk Road
- Railway connectivity with EU countries

### Ro-Ro shipping enablers

- Existing lines to Bulgaria, Turkey, Georgia
- Upcoming UA-TR trade liberalization
- Concession of Chornomorsk ferry terminal

### Corridors

- Pan-European corridor №3
- Pan-European corridor №5
- Pan-European corridor №7
- Pan-European corridor №9
- TRACECA
- Economic Belt of Silk Road

## Concession

### SE “Stevedoring Company Olviia”

*FS and concession documents are prepared*

▶ 179 ha total area  
▶ 2,2 million tons of cargo were reloaded in 2016

▶ 10,3 m max depth  
▶ 7 berths, 1,53 km length of berthing line

### SE “Kherson Commercial Sea Port”

*FS and concession documents are prepared*

▶ 47 ha total area  
▶ 1,2 million tons of cargo were reloaded in 2016

▶ 7,6 m max depth  
▶ 4 berths, 600 m length of berthing line

### Chornomorsk Sea Port’s railway-ferry complex

*Tender is on to define consultant for FS and documentation*

▶ 12 ha total area  
▶ Annual terminal capacity: 4,5 mln tons in railway cars, 35 000 trucks and 250 000 cars

▶ 9,6 m max depth  
▶ 3 berths, 690 m length of berthing line

### Yuzhnyi Sea Port

*PreFS in cooperation with European Commission*

▶ 26 ha total area  
▶ 11,46 million tons of cargo were reloaded in 2017

▶ 21 m max depth  
▶ 7 berths, 2 km length of berthing line

## Road M-14

### Parameters

The existing road in its technical parameters corresponds to:

- I category – 51,719 km;
- II category – 150,276 km;
- III category – 1,300 km.

### Average daily traffic intensity (ADTI)

ADTI of motor vehicles is from 6496 to 21400 vehicle/day, including:

- for Odesa region – 9 300 – 21 400 vehicle/day;
- for Mykolayiv region – 6 496 – 14 591 vehicle/day;
- for Kherson region – 9 085 – 10 434 vehicle/day.

# Special Economic Zone “Reni”

The income of the subjects of SEZ “Reni” received from the implementation of investment projects is taxed at the rate of 20 percent to the object of taxation

## New project of the Law

First three years

- without taxes

Within next three years

- 50%

After six years –

- on a general basis

Area  
94,36 ha

Length of  
berthing line  
3 927 m

The passenger complex of Odessa port is located in the very center of the city, 5-10 minutes walk from the main city attractions - the Potemkin Stairs and the monument to the Duke de Richelieu, the first mayor of Odessa, Deribasovskaya street and the Opera and Ballet Theater. Nevertheless, the passenger complex attracts many tourists: there are many monuments of architecture and history, entertainment facilities, bars and restaurants

Hotel "Odessa" is located on the territory of the passenger complex

- ▶ Distance to airport: 16 km
- ▶ Distance to railway station: 3 km
- ▶ Distance to city center: 1 km

The hotel offers 158 comfortable rooms. Each room has satellite TV, mini-bar, individual air-conditioning system, safe, telephone, internet, a security system, fire alarm, air conditioning and ventilation, international telephone, satellite television and Internet

### ❗ IMPORTANT!

#### PASSENGER COMPLEX IN FIGURES

- *Throughput – over 1 million passengers / year*
- *Distance to airport – 8 km*  
*to the railway station – 3 km*  
*to the bus station – 5 km*
- *Total exhibition area:*  
*Covered – over 10,500 square meters.*  
*Open – over 30 thousand square meters.*
- *Length of berths – 1,370 m*
- *Depth at the berths – from 9.5 to 11.5 m*
- *Total length up to 330 m*
- *Parking space – over 300 parking spaces*
